### All results from the first hike in 1967 to the present day.

Note that the route changed in 2002 when the start was moved to its current location, the order of the checkpoints was shifted round and a new checkpoint at Minton was added. Results for 1967-2000 can not be directly compared with those from 2002 onwards. Between 2010 and 2015 a compulsory minor variation of route around Black Rhadley was applied adding just under 1km, this was lifted when yet a new optional route up Black Rhadley became available from 2016. So times from 2010-2015 can not be compared to the previous times and times from 2016 onwards can not be compared either.
